#### INDEPENDENT AUDITORS' REPORT

The Board of Directors and Shareholders Nanliu Enterprise Company Limited

#### **Opinion**

We have audited the accompanying parent company only financial statements of Nanliu Enterprise Company Limited (the "Company"), which comprise the parent company only balance sheets as of December 31, 2016 and 2015, and the parent company only statements of comprehensive income, changes in equity and cash flows for the years then ended, and the notes to the parent company only financial statements, including a summary of significant accounting policies. In our opinion, the accompanying parent company only financial statements present fairly, in all material respects, the parent company only financial position of the Company as of December 31, 2016 and 2015, and its parent company only financial performance and its parent company only cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

#### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of Parent Company Only Financial Statements section of our report. We are independent of the Company in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent company only financial statements for the year ended December 31, 2016. These matters were addressed in the context of our audit of the parent company only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters for the Company's parent company only financial statements for the year ended December 31, 2016 are stated as follows:

Valuation of accounts receivable

Please refer to Notes 4(6) and 6(3) to the consolidated financial statements for detail information and accounting policy of valuation of accounts receivable. As of December 31, 2016, net accounts and notes receivable of the Company amounted to NT\$ 523,466 thousand dollars, accounted for 11.74% of total assets, has significant impact to financial statements of the Company, and the provision for impairment of accounts and notes receivable is inherently judgmental, therefore, we

have identified valuation of accounts receivable as a key audit matter.

Our audit procedures to the above key audit matter (including but not limited to) are as the following:

- 1. Performed internal control test on top 10 customers and other major customers, surveyed these customers' background and randomly checked to confirm whether the receivables arising from these customer sales are in line with the Company's credit policy. We inspected how the Company processed breach of the credit policy.
- 2. Performed internal control test by randomly vouching from sales documents to accounts receivable aging report to test accuracy of accounts receivable aging.
- 3. Performed analytical review procedures by comparing the difference in turnover and accounts receivable balance for reasonableness of variances.
- 4. Reviewed subsequent collection of significant receivables after the balance sheet date.
- 5. Analyzed accounts receivable aging and overdue accounts receivable analysis provided by the Company as of balance sheet date and reviewed based on historical information to determine whether to conduct valuation of accounts receivable for individual customers. We focused on unusual events and traced how these events were recognized in financial statements. We tested the reasonableness of the recoverable rate based on collection of receivables and other customer information to verify the adequacy of provision for impairment of individual overdue receivables and reasonableness of underlying assumptions used by the management of the Company.
- 6. Reviewed the subsequent collection of overdue accounts receivable after the balance sheet date to determine adequacy of allowance for overdue accounts.

Valuation of inventories

Please refer to Notes 4(9), 5 and 6(4) to the Company for the detail information and accounting policy, uncertainty of valuation of inventories; The principal operating activities of the Company include Air-Through/Thermal-Bonded Nonwovens Fabrics, Spunlace Nonwovens Fabrics, Hightech woodpulp spunlace Fabrics, Wet Wipes, Facial Mask and care product, etc., the selling price of these products fluctuates from the supply of upstream suppliers and changes in the market competition, resulted risk of book value exceeding its net realizable value, therefore, we have identified valuation of inventories as a key audit matter.

Our audit procedures to the above key audit matter (including but not limited to) are as the following:

- 1. Understood inventory valuation process by the management.
- 2. Understood he Group's warehousing management process, reviewed the Company's annual physical inventory count plan and observed the annual inventory count to assess the reasonableness of methods used by the management to identify and monitor obsolescent inventories.
- 3. Randomly checked the inventory movement report for consumption of inventories and compared inventory aging report to that of prior year for reasonableness and accuracy of inventory aging report.

- 4. Conducted analytical review process for inventory balances, turnover and gross margin by products, compared differences to prior year for any unusual variance.
- 5. Compared historical inventory provision and actual write-down to analyze the appropriateness of the accounting policies of the management for inventory provision.
- 6. Verified the reasonableness of the net realizable value of inventory by randomly vouching sales and purchase orders to evaluate adequacy of inventory provision.

# Responsibilities of Management and Those Charged with Governance for the Parent Company Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent company only financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of parent company only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent company only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those charged with governance (including Supervisors) are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Parent Company Only Financial Statements
Our objectives are to obtain reasonable assurance about whether the parent company only
financial statements as a whole are free from material misstatement, whether due to fraud or error,
and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of
assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards
generally accepted in the Republic of China will always detect a material misstatement when it exists.
Misstatements can arise from fraud or error and are considered material if, individually or in the
aggregate, they could reasonably be expected to influence the economic decisions of users taken on
the basis of these parent company only financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent company only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent company only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the parent company only financial statements, including the disclosures, and whether the parent company only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent company only financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent company only financial statements for the year ended December 31, 2016 and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Ching-Hsiang Wang and Shu-Tung Wang.

YANGTZE CPAS & Co., March 14, 2017

#### Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdiction. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China. For the convenience of readers, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors 'report and financial statements shall prevail.

# NAN LIU Enterprise Co., Ltd. and Subsidiaries Notes to Parent Company Only financial statements For the year ending on December 31, 2016 and 2015

(All Amounts Expressed in Thousands of New Taiwan Dollars, Unless Specified Otherwise)

## 1. Company history

NAN LIU Enterprise Co., Ltd. (hereinafter referred to as the company) was established in 1973 and approved by the Ministry of Economic Affairs with the registered address of No.88, Bixiu Road, Qiaotou District, Kaohsiung City. The Company is engaged in selling air-through nonwovens, spunlace nonwovens, wet napkins, facial masks and skin care products as shown in appendix 14.

2. The date of authorization for issuance of the parent company only financial statements and procedures for authorization

The parent company only financial statements were approved and authorized for issue by the board of directors on March 14th of 2017.

- 3. Application of new standards, amendments and interpretations
  - (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards ("IFRS") as endorsed by the Financial Supervisory Commission ("FSC"): None
  - (2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Company:

On July 18, 2016, according to Rule No. 1050026834 and on December 19, 2016, according to Rule No. 1050050021 issued by the FSC. The Company has applied the following International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), IFRIC, and SIC (hereinafter referred to as IFRS), and Regulations Governing the Preparation of Financial Reports by Securities Issuers issued by the International Accounting Standards Board (IASB) and endorsed by Financial Supervisory Commission (FSC) with effective date starting 2017.

New, Revised or Amended Standards and Interpretations	Effective Date Issued by IASB (Note 1)
Annual Improvements to IFRSs 2010 - 2012 Cycle	July 1, 2014 (Note 2)
Annual Improvements to IFRSs 2011 - 2013 Cycle	July 1, 2014
Annual Improvements to IFRSs 2012 - 2014 Cycle	January 1, 2016 (Note 3)
Amendments to IFRS 10, IFRS 12 and IAS 28 Investment Entities: Applying the Consolidation Exception	January 1, 2016

Amendment to IFRS 11 Accounting for Acquisitions of Interests in Joint Operations	January 1, 2016
Amendment to IFRS 14 Regulatory Deferral Accounts	January 1, 2016
Amendment to IAS 1 Disclosure Initiative	January 1, 2016
Amendments to IAS 16 and IAS 38 Clarification of Acceptable Methods of Depreciation and Amortization	January 1, 2016
Amendments to IAS 16 and IAS 41 "agriculture: bearer plants"	January 1, 2016
Amendment to IAS 19 Defined Benefit Plans: Employee Contributions	July 1, 2014
Amendment to IAS 27 Equity Method in Separate Financial Statements	January 1, 2016
Amendment to IAS 36 Recoverable Amount Disclosures for Non-Financial Assets	January 1, 2014
Amendment to IAS 39 Novation of Derivatives and Continuation of Hedge Accounting	January 1, 2014
IFRIC 21, 'Levies'	January 1, 2014

Note 1: The aforementioned new, revised or amended standards or interpretations are effective after fiscal year beginning on or after the effective dates, unless specified otherwise.

Note 2: The amendments apply prospectively to share-based payment transactions with a grant date on or after 1 July 2014. The amendments apply prospectively to business combination for which the acquisition date is on or after 1 July 2014. The amendments to IFRS 13 are effective from amend date. The other amendments are effective for annual periods beginning on or after 1 July 2014.

Note 3: The amendment to IFRS 5 is applied prospectively to changes in a method of disposal that occur in annual periods beginning on or after January 1, 2016; the remaining amendments are effective for annual periods beginning on or after January 1, 2016.

Except for the following, the above standards and interpretations have no significant impact to the Company's financial condition and operating results based on the Company's assessment. The quantitative impact will be disclosed when the assessment is complete.

# 1. Amendment to IAS 19 Defined Benefit Plans: Employee Contributions

The amendments clarify the requirements that relate to how contributions from employees or third parties that are linked to service should be attributed to periods of service. In addition, it permits a practical expedient if the amount of the contributions is independent of the number of years of service.

#### 2. Annual Improvements to IFRSs 2010 - 2012 Cycle

#### (1) IFRS 2 Share-based Payment

To clarify vesting condition that only include of service condition and performance condition. Modified or add definition of service condition, performance condition and market condition.

#### (2) IFRS 3 Business Combinations

The amendments clarify that contingent consideration that is classified as an asset or a liability should be measured at fair value at each reporting date. Changes in fair value (other than measurement period adjustments) should be recognized profit and loss.

#### (3) IFRS 8 Operating Segments

The amendments require an entity to disclose the judgements made by management in applying the aggregation criteria to operating segments. The amendments clarifies that a reconciliation of the total of the reportable segments' assets to the entity's assets should only be provided if the segment assets are regularly provided to the chief operating decision-maker.

#### (4) IFRS 13 Measured at fair value

The basis for conclusions was amended to clarify that the issuance of IFRS 13 and consequential amendments to IAS 39 and IFRS 9 did not remove the ability to measure short-term receivables and payables with no stated interest rate at their invoice amounts without discounting, if the effect of not discounting is immaterial.

#### (5) IAS 16 Property, plant and equipment

The amended requirements clarify that the gross carrying amount of the asset and that accumulated depreciation/amortization is the difference between the gross carrying amount and the carrying amount after taking into account accumulated impairment losses.

#### (6) IAS 24 Related Party Disclosures

IAS 24 was amended to clarify that a management entity providing key management personnel services to the Corporation and its subsidiaries is a related party of the Corporation and its subsidiaries. Consequently, the Corporation and its subsidiaries are required to disclose as related party transactions the amounts incurred for the service paid or payable to the management entity for the provision of key management personnel services. However, disclosure of the components of such compensation is not required.

#### (7) IAS 38 Intangible Assets

The amendments regulate the calculation of accumulated amortization of intangible assets under revaluation method.

#### 3. Annual Improvements to IFRSs 2011 - 2013 Cycle

#### (1) IFRS 3 Business Combinations

Clarifies that IFRS 3 excludes from its scope the accounting for the formation of a joint arrangement in the financial statements of the joint arrangement itself.

#### (2) IFRS 13 Measured at fair value

Clarifies that the scope of the portfolio exception defined in paragraph 52 of IFRS 13 includes all contracts accounted for within the scope of IAS 39 Financial Instruments: Recognition and Measurement or IFRS 9 Financial Instruments, regardless of whether they meet the definition of financial assets or financial liabilities as defined in IAS 32 Financial Instruments.

#### 4. Annual Improvements to IFRSs 2012 - 2014 Cycle

#### (1) IFRS 7 Financial Instruments: Disclosures

The amendments provide additional guidance to clarify whether a servicing contract is continuing involvement in a transferred asset for the purposes of the disclosures required in relation to transferred assets. Amendments to IFRS 7 on offsetting disclosures should not be required in all condensed interim financial statements.

#### (2) IAS 19 Employee Benefits

The amendments to IAS 19 clarify that the high quality corporate bonds used to estimate the discount rate for post-employment benefits should be issued in the same currency as the benefits to be paid. These amendments would result in the depth of the market for high quality corporate bonds being assessed at currency level. The amendments apply from the beginning of the earliest comparative period presented in the financial statements in which the amendments are first applied. Any initial adjustment arising should be recognized in retained at the beginning of that period.

#### 5. IAS 36 Impairment of Assets

The amendments to IAS 36 clarify that the Company is required to disclose the recoverable amount of an asset or a cash-generating unit only when an impairment loss on the asset has been recognized or reversed during the period. Furthermore, if the recoverable amount for which impairment loss has been recognized or reversed

is fair value less costs of disposal, the Company is required to disclose the fair value hierarchy. If the fair value measurements are categorized within Level 2 or Level 3, the valuation technique and key assumptions used to measure the fair value are disclosed. The discount rate used is disclosed if such fair value less costs of disposal is measured by using present value technique. The amendments are effective from 2017.

6. Amendments to the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

The amendments include additions of several accounting items and requirements for disclosures of impairment of non-financial assets as a consequence of the IFRSs endorsed by the FSC for application starting from 2016. In addition, as a result of the post implementation review of IFRSs in Taiwan, the amendments also include emphasis on certain recognition and measurement considerations and add requirements for disclosures of related party transactions and goodwill.

The amendments stipulate that other companies or institutions of which the chairman of the board of directors or president serves as the chairman of the board of directors or the president, or is the spouse or second immediate family of the chairman of the board of directors or president of the Company are deemed to have a substantive related party relationship, unless it can be demonstrated that no control, joint control, or significant influence exists. Furthermore, the amendments require the disclosure of the names of the related parties and the relationship with whom the Company has significant transaction. If the transaction or balance with a specific related party is 10% or more of the Company and subsidiaries respective total transaction or balance, such transaction should be separately disclosed by the name of each related party.

The amendments also require additional disclosure if there is a significant difference between the actual operation after business combination and the expected benefits on acquisition date.

The disclosures of related party transactions and impairment of goodwill will be enhanced when the above amendments are retrospectively applied in 2017.

Except for the aforementioned impact, as of the date that the accompanying parent company only financial statements were authorized for issue, the Company continues in evaluating the impact on its financial position and financial performance as a result of amendments to the Regulations Governing the

Preparation of Financial Reports by Securities Issuers. The related impact will be disclosed when the Company completes the evaluation.

#### (3) Effect of the IFRSs issued by IASB but not endorsed by FSC

The Company has not applied the following IFRSs issued by the IASB but not endorsed by the FSC. The IFRSs in issue on 3th October, 2016 by Financial Supervisory Commission (FSC) and endorsed from with effective date starting 2017. The IFRSs issued by IASB before 1 January, 2016 and endorsed from with effective date starting 2017. (The IFRSs effectively not yet and effective date confirmed not yet are not including of IFRS 9 Financial Instruments and IFRS 15 Revenue from Contracts with Customers.) FSC announced that Public entity must be applied IFRS 9 and IFRS 15 from 2018. As of the date that the parent company only financial statements were issued, the initial adoption to the new, revised or amended standards and interpretations except mentioned above is still subject to the effective date to be published by the FSC.

Effective Date

New, Revised or Amended Standards and Interpretations	Issued by IASB (Note 1)
Annual Improvements to IFRSs 2014 - 2016 Cycle	Note 2
Amendment to IFRS 2 Classification and Measurement of Share-based Payment Transactions	January 1, 2018
Amended by Applying IFRS 9 'Financial Instruments' with IFRS 4 'Insurance Contracts'	January 1, 2018
IFRS 9 Financial Instruments	January 1, 2018
Amendments to IFRS 9 and IFRS 7 Mandatory Effective Date of IFRS 9 and Transition Disclosure	January 1, 2018
Amendments to IFRS 10 and IAS 28 Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Effective date to be determined by IASB
IFRS 15 Revenue from Contracts with Customers	January 1, 2018
Amendment to IFRS 15 Clarifications to IFRS 15	January 1, 2018
IFRS 16 Leases	January 1, 2019
Amendment to IAS 7 Disclosure Initiative	January 1, 2017
Amendment to IAS 12 Recognition of Deferred Tax Assets for Unrealized Losses	January 1, 2017
Amendments to IAS 40 "Transfers of investment property"	January 1, 2018
IFRIC 22 "Foreign Currency Transactions and Advance Consideration"	January 1, 2018

Note 1: Unless stated otherwise, the above New IFRSs are effective for annual periods beginning on or after their respective effective dates.

Note 2: The amendment to IFRS 12 is retrospectively applied for annual periods beginning on or after January 1, 2017; the amendment to IAS 28 is retrospectively applied for annual periods beginning on or after January 1, 2018.

#### 1. IFRS 9 "Financial Instruments"

#### Recognition and measurement of financial assets

With regards to financial assets, all recognized financial assets that are within the scope of IAS 39 "Financial Instruments: Recognition and Measurement" are subsequently measured at amortized cost or fair value. Under IFRS 9, the requirement for the classification of financial assets is stated below.

For the Corporation and its subsidiaries' debt instruments that have contractual cash flows that are solely payments of principal and interest on the principal amount outstanding, their classification and measurement are as follows:

- (1) For debt instruments, if they are held within a business model whose objective is to collect the contractual cash flows, the financial assets are measured at amortized cost and are assessed for impairment continuously with impairment loss recognized in profit or loss, if any. Interest revenue is recognized in profit or loss by using the effective interest method;
- (2) For debt instruments, if they are held within a business model whose objective is achieved by both the collecting of contractual cash flows and the selling of financial assets, the financial assets are measured at fair value through other comprehensive income (FVTOCI) and are assessed for impairment. Interest revenue is recognized in profit or loss by using the effective interest method, and other gain or loss shall be recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses. When the debt instruments are derecognized or reclassified, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.

Except for the above, all other financial assets are measured at fair value through profit or loss. However, the Corporation and its subsidiaries may make an irrevocable election to present subsequent changes in the fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognized in profit or loss. No subsequent impairment assessment is required, and the cumulative gain or loss previously recognized in other comprehensive income cannot be reclassified from equity to profit or loss.

#### Impairment of financial assets

IFRS 9 requires impairment loss on financial assets to be recognized by using the "Expected Credit Losses Model". The credit loss allowance is required for financial assets measured at amortized cost, financial assets mandatorily measured at FVTOCI, lease receivables, contract assets arising from IFRS 15 "Revenue from Contracts with Customers", certain written loan commitments and financial guarantee contracts. A loss allowance for the 12-month expected credit losses is required for a financial asset if its credit risk has not increased significantly since initial recognition. A loss allowance for full lifetime expected credit losses is required for a financial asset if its credit risk has increased significantly since initial recognition and is not low. However, a loss allowance for full lifetime expected credit losses is required for trade receivables that do not constitute a financing transaction.

For originated credit-impaired financial assets, the Corporation and its subsidiaries take into account the expected credit losses on initial recognition in calculating the credit-adjusted effective interest rate. Subsequently, any changes in expected losses are recognized as a loss allowance with a corresponding gain or loss recognized in profit or loss.

#### Transition

Financial instruments that have been derecognized prior to the effective date of IFRS 9 cannot be reversed to apply IFRS 9 when it becomes effective. Under IFRS 9, the requirements for classification, measurement and impairment of financial assets are applied retrospectively with the difference between the previous carrying amount and the carrying amount at the date of initial application recognized in the current period, and restatement of prior periods is not required. The requirements for general hedge accounting shall be applied prospectively and the accounting for hedging options shall be applied retrospectively.

2. Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture"

The amendments stipulated that, when the Corporation and its subsidiaries sell or contribute assets that constitute a business (as defined in IFRS 3) to an associate or joint venture, the gain or loss resulting from the transaction is recognized in full. Also, when the Corporation and its subsidiaries lose control of a subsidiary that contains a business but retains significant influence or joint control, the gain or loss resulting from the transaction is recognized in full.

Conversely, when the Corporation and its subsidiaries sell or contribute assets that do not constitute a business to an associate or joint venture, the gain or loss resulting from the transaction is recognized only to the extent of the unrelated investors' interest in the associate or joint venture, i.e. the Corporation and its subsidiaries' share of the gain or loss is eliminated. Also, when the Corporation and its subsidiaries lose control of a subsidiary that does not contain a business but retains significant influence or joint control in an associate or a joint venture, the gain or loss resulting from the transaction is recognized only to the extent of the unrelated investors' interest in the associate or joint venture, i.e. the Corporation and its subsidiaries' shares of the gain or loss are eliminated.

3. IFRS 15 "Revenue from Contracts with Customers" and related amendment IFRS 15 establishes principles for recognizing revenue that apply to all contracts with customers, and will supersede IAS 18 "Revenue", IAS 11 "Construction Contracts" and a number of revenue-related interpretations.

Recognize revenue when the entity take goods or provide services. Control of an asset is defined as the ability to direct the use of and obtain substantially all of the remaining benefits from the asset.

The core principle of IFRS 15 is that revenue is recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

When applying IFRS 15, the Corporation and its subsidiaries shall recognize revenue by applying the following steps:

- (1) Identify the contract with the customer;
- (2) Identify the performance obligations in the contract;
- (3) Determine the transaction price;
- (4) Allocate the transaction price to the performance obligations in the contract; and
- (5) Recognize revenue when the Corporation and its subsidiaries satisfy a performance obligation.

When IFRS 15 and related amendment are effective, the Corporation and its subsidiaries may elect to apply this Standard either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of initially applying this Standard recognized at the date of initial application.

#### 4. Amendments to explanation of IFRS 15

The amendment clarifies how to identify a performance obligation in a contract, determine whether an entity is a principal or an agent, and determine whether the revenue from granting a license should be recognized at a point in time or over time. Except above clarifies, the amendments include of two added simplified rules decrease cost and complication when the company apply new Standards at the first time.

IFRS 16 sets out the accounting standards for leases that will supersede IAS 17 and a number of related interpretations.

#### 5. IFRS 16 "Leases"

IFRS 16 sets out the accounting standards for leases that will supersede IAS 17 and a number of related interpretations.

Under IFRS 16, if the Company and its subsidiaries are a lessee, it shall recognize right-of-use assets and lease liabilities for all leases on the parent company only balance sheets except for low-value and short-term leases. The Company and its subsidiaries may elect to apply the accounting method similar to the accounting for operating lease under IAS 17 to the low-value and short-term leases. On the parent company only statements of comprehensive income, the Company and its subsidiaries should present the depreciation expense charged on the right-of-use asset separately from interest expense accrued on the lease liability; interest is computed by using effective interest method. On the parent company only statements of cash flows, cash payments for the principal portion of the lease liability and the interest portion are classified within financing activities.

The application of IFRS 16 is not expected to have a material impact on the accounting of the Company and its subsidiaries as lessor.

When IFRS 16 becomes effective, the Company and its subsidiaries may elect to apply this Standard either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of the initial application of this Standard recognized at the date of initial application.

6. Amendments to IAS 12 "Recognition of Deferred Tax Assets for Unrealized Losses" The amendment clarifies that the difference between the carrying amount of the debt instrument measured at fair value and its tax base gives rise to a temporary difference, even though there are unrealized losses on that asset, irrespective of whether the Company and its subsidiaries expect to recover the carrying amount of the debt instrument by sale or by holding it and collecting contractual cash flows.

In addition, in determining whether to recognize a deferred tax asset, the Company and its subsidiaries should assess a deductible temporary difference in combination with all of its other deductible temporary differences, unless the tax law restricts the utilization of losses as deduction against income of a specific type, in which case, a deductible temporary difference is assessed in combination only with other deductible temporary differences of the appropriate type. The amendment also stipulates that, when determining whether to recognize a deferred tax asset, the estimate of probable future taxable profit may include some of the Company and its subsidiaries assets for

more than their carrying amount if there is sufficient evidence that it is probable that the Company and its subsidiaries will achieve the higher amount, and that the estimate for future taxable profit should exclude tax deductions resulting from the reversal of deductible temporary differences.

As of the date the parent company only financial statements were reported to the board of directors for issue, the Company and its subsidiaries are in the process of estimating the impact of the impending initial application of the aforementioned and other standards and the amendments to interpretations on their financial position and results of operations. Disclosures will be provided after a detailed review of the impact has been completed.

#### 4. Summary of significant accounting policies

The parent company only financial statements are prepared in conformity with significant accounting policies are as follows. The accounting policies applied consistently during the reporting period unless otherwise stated.

#### (1) Statement of Compliance

The parent company only financial statements are prepared in conformity with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and IFRS, IAS, interpretations, and announcements approved by the Financial Supervisory Commission

#### (2) Basis of preparation

- 1. Except for the following items, the parent company only financial statements have been prepared under the historical cost conventions:
  - Defined benefit liabilities are recognized based on the net amount of pension fund assets less the present value of the defined benefit obligation.
- 2. The significant accounting policies apply to all periods covered by the parent company only financial report.
- 3. The preparation of financial statements is in conformity with the IFRS requirement of the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. Areas involving a higher degree of judgment and complexity or areas where assumptions and estimates are significant to the parent company only financial statements are disclosed in Note 5.

#### (3) Foreign currency exchange

Items included in the financial statements of each entity in the Company are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The parent company only financial statements are presented in New Taiwan dollars, which is the Company's functional and presentation currency.

#### 1. Foreign currency transactions and balances

- A. Foreign currency transactions are exchanged into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are measured. Foreign exchange gains and losses resulting from the settlement of such transactions are recognized in profit or loss in the period in which they arise.
- B. Monetary assets and liabilities denominated in foreign currencies at the period end are re-translated at the exchange rates prevailing at the balance sheet date. Exchange differences arising upon re-translation at the balance sheet date are recognized in profit or loss.
- C. Exchange differences of non-monetary assets and liabilities arising upon re-translation are recognized in fair value profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through profit or loss are retranslated at the exchange rates prevailing at the balance sheet date. Their translation differences are then recognized in profit or loss. Non-monetary assets and liabilities denominated in foreign currencies held at fair value through other comprehensive income are re-translated at the exchange rates prevailing at the balance sheet date. Their translation differences are then recognized in other comprehensive income. However, non-monetary assets and liabilities denominated in foreign currencies that are not measured at fair value are translated using the historical exchange rates at the dates of the initial transactions.
- D. All foreign exchange gains and losses are presented in the statement of comprehensive income within other gains and losses.

#### 2. Translation of foreign operations

- (a) The operating results and financial position of all Company entities, associates and joint arrangements that have a functional currency different from the presentation currency are translated into the functional currency as follows:
  - i. Assets and liabilities for each balance sheet presented are translated at the closing exchange rate at the date of that balance sheet;
  - ii. Income and expenses for each statement of comprehensive income are translated at the average exchange rates of that period; and
  - iii. All resulting exchange differences are recognized as other comprehensive income.
- (b) Financial statements of foreign entities reported in the currency of a hyperinflationary economy should be restated by applying a general price index of the balance sheet date. Restated financial statements are then translated into the currency of the Company using the exchange rate of the balance sheet date.
- (c) Translation differences from net investments of foreign operations, loans with longterm investment natures, and other monetary instruments designated as hedging instruments for these investments are recognized as other comprehensive income.

- (d) Upon partial disposal or sale of the foreign operation, exchange differences that were recorded in other comprehensive income are proportionately reclassified to profit or loss as part of the profit or loss on sale. When the foreign operation partially disposed of or sold is a subsidiary, cumulative exchange differences that were recorded in other comprehensive income are proportionately transferred to the non-controlling interest in this foreign operation. In addition, if the Company retains partial interest in the former foreign subsidiary after losing control of the former foreign subsidiary, such transactions should be accounted for as disposal of all interest in the foreign operation.
- (e) Goodwill and fair value adjustments generated from acquiring the foreign entity are considered as the assets and liabilities of the foreign entity, and they are translated using the closing exchange rate at the date of that balance sheet.

#### (4) Classification of Current and Noncurrent Assets and Liabilities

- A. Assets that meet one of the following criteria are classified as current assets. Otherwise, they are classified as non-current assets:
  - (a) Assets arising from operating activities that are expected to be realized or are intended to be sold or consumed within the normal operating cycle;
  - (b) Assets held mainly for trading purposes;
  - (c) Assets that are expected to be realized within twelve months from the balance sheet date;
  - (d) Cash and cash equivalents, excluding restricted cash and cash equivalents and those that are to be exchanged or used to pay off liabilities more than twelve months after the balance sheet date.

Assets that do not meet the above criteria are classified as non-current items.

- B. Liabilities that meet one of the following criteria are classified as current liabilities:
  - (a) Liabilities that are expected to be paid off within the normal operating cycle;
  - (b) Liabilities arising mainly from trading activities;
  - (c) Liabilities that are to be paid off within twelve months from the balance sheet date;
  - (d) Liabilities for which the repayment date cannot be extended unconditionally to more than twelve months after the balance sheet date.

The Company classifies assets that do not meet the above criteria as non-current liabilities

#### (5) Cash equivalents

- a. In the parent company only cash flow statements, cash and cash equivalents include currency, bank deposits, and other highly liquid investments with a maturity of three months or less at the time of purchase.
- b. Cash equivalents refer to the following conditions of highly liquid short-term

investments:

- (a) Investments that are readily convertible to known amounts of cash.
- (b) Investments that are subject to an insignificant risk of changes in value.

#### (6) Receivables

Accounts receivable are receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. Accounts receivable are initially recognized at fair value and subsequently measured at amortized cost using the effective interest method, less provision for impairment.

#### (7) Impairment of financial assets

In addition to measuring gain or loss of financial assets at fair value, the Company assesses at each balance sheet date whether there is objective evidence that a financial asset or a Company of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset, and if the loss event has an impact on the estimated future cash flows of the financial asset or Company of financial assets that can be reliably estimated, the financial assets are considered impaired.

For financial assets measured at amortized cost, such as accounts receivable, if the assets are not considered impaired after separate evaluation, impairment is evaluated with a combination basis. This company regularly evaluates the recoverability possibilities of accounts receivable based on accounts receivable age of customers and customers' credit rating analysis.

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate.

If, in the subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss shall be reversed either directly or by adjusting an allowance account. The reversal shall not result in a carrying amount of the financial asset that exceeds what the amortized cost would have been had the impairment not been recognized at the date the impairment is reversed. The amount of the reversal shall be recognized in profit or loss.

For financial assets measured by costs, the amount of impairment loss is measured as the difference between the asset's carrying amount and the discounted present value of the estimated future cash flows of the similar asset market return rate on the financial asset. Impairment loss is not reversed in the subsequent period.

All impairment losses of financial assets are directly deducted from the assets' carrying amounts. However, carrying amount of accounts receivable is reduced through the use of

an impairment allowance account. When the accounts receivable is not recoverable, it is recognized in the allowance account. The originally recognized amounts recovered subsequently are credited to the allowance account.

## (8) Derecognition of financial assets

The Company will derecognize financial assets that meet one of the following criteria:

- A. The Company derecognizes a financial asset when the contractual rights to receive the cash flows from the financial asset expire.
- B. The contractual rights to receive cash flows of the financial assets have been transferred and the Company has transferred substantially all risks and rewards of ownership of the financial assets.
- C. Almost all risks and returns of the ownership of the financial assets are neither transferred nor reserved, and the control over the financial assets is not reserved.

#### (9) Inventories

Inventories are stated at the lower of cost and net realizable value. Cost is determined using the weighted average method. The cost of finished goods and work in progress comprises raw materials, direct labor, other direct costs and related production overheads (allocated based on normal operating capacity). The item by item approach is used in applying the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and applicable variable selling expenses.

#### (10) Investments Accounted for Using Equity Method

Investments accounted for using the equity method include investments in subsidiaries. A subsidiary is an entity that is controlled by the Company. (Including special purpose entities) Under the equity method, an investment in a subsidiary is initially recognized at cost and adjusted thereafter to recognize the Company's share of profit or loss and other comprehensive income of the subsidiary as well as the distribution received. The Company also recognized its share in the changes in the equity of subsidiaries.

Changes in the Company's ownership interests in subsidiaries that do not result in the Company losing control over the subsidiaries are accounted for as equity transactions. Any difference between the carrying amount of the subsidiary and the fair value of the consideration paid or received is recognized directly in equity.

Any excess of the cost of acquisition over the Company's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of an associate recognized at the date of acquisition is recognized as goodwill, which is included within the carrying amount of the investment and cannot be amortised. Any excess of the Company's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognized immediately in profit or loss.

When the Company loses control of a subsidiary, any retained investment of the former subsidiary is measured at the fair value at that date. A gain or loss is recognized in profit or loss and calculated as the difference between (a) the aggregate of the fair value of consideration received and the fair value of any retained interest at the date when control is lost; and (b) the previous carrying amount of the investments in such subsidiary. In addition, the Company shall account for all amounts previously recognized in other comprehensive income in relation to the subsidiary on the same basis as would be required if the subsidiary had directly disposed of the related assets and liabilities.

When the Company transacts with its subsidiaries, profits and losses resulting from the transactions with the subsidiaries are recognized in the Company's parent company only financial statements only to the extent of interests in the subsidiaries that are not owned by the Company.

The Company prepared parent company only financial statements which provided that the profit or loss and other comprehensive income for the period presented in the parent company only financial statements shall be the same as the profit or loss and other comprehensive income attributable to stockholders of the parent presented in the consolidated financial statements for the period, and the total equity presented in the parent company only financial statements shall be the same as the equity attributable to the parent company presented in the consolidated financial statements. Therefore, the Company accounted for its investments in subsidiaries using equity method and, accordingly, made necessary adjustments.

#### (11) Property, plant and equipment

- A. Property, plant and equipment are initially recorded at cost. Borrowing costs incurred during the construction period are capitalized.
- B. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they occur.
- C. Land is not depreciated. Other property, plant and equipment apply the cost model and are depreciated using the straight-line method to allocate their cost over their estimated useful lives. The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each financial year end. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in the estimate. This is in accordance with IAS 8, 'Accounting Policies, Changes in Accounting Estimates and

Errors', and the change is reported from the date of the change. For the estimated useful lives of each asset, except that the houses and buildings are 20-25 years, the remaining personal protective equipment is given 2-10 years.

#### (12) Impairment of non-financial assets

At each balance sheet date, the Company assesses the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss is reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

#### (13) Leases (lessor/lessee)

Based on the terms of a lease contract, a lease is classified as a finance lease if the lessee (with the Company as the lessor) or the Company (with the Company as the lessee) assumes substantial or all risks and rewards incidental to ownership of the leased asset. An operating lease is a lease other than a finance lease. Lease income (net of any incentives given to the lessee) or payments (net of any incentives received from the lessor) from an operating lease is recognized in profit or loss on a straight-line basis over the lease term.

#### (14) Long-term prepaid rent

- A. The Company signed a superficies agreement with Taiwan Sugar Corporation in January 2014 for new factory. The agreement is valid through January 9, 2024 and is amortized for 10 years.
- B. NANLIU ENTERPRISE (PINGHU) CO. has land use rights for 50 years, amortized over 50 years.

#### (15) Loans

- A. Loans are recognized initially at fair value, net of the transaction costs incurred. Loans are subsequently stated at amortized cost, and any difference between the proceeds (net of transaction costs) and the redemption value is recognized in profit or loss over the period of the loans using the effective interest method.
- B. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down,

the fee is capitalized as a pre-payment for liquidity services and amortized over the period of the facility to which it relates.

#### (16) Accounts and notes payable

Notes and accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. They are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

#### (17) Derecognition of financial liabilities

Financial liability is derecognized when the obligation under the liability specified in the contract is discharged, cancelled or expired.

#### (18) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

#### (19) Provisions

Provisions (including decommissioning) are recognized when the Company has a present legal or constructive obligation as a result of past events, and it is probable that an outflow of economic resources will be required to settle the obligation and the amount of the obligation can be reliably estimated. Provisions are measured at the present value of the expenditures expected to be required to settle the obligation on the balance sheet date.

#### (20) Income tax

A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity, in which cases the tax is recognized in other comprehensive income or equity.

B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional 10% tax is levied on unappropriated retained earnings and is recorded as income tax expense in the year the stockholders resolve to retain the earnings.

- C. Deferred tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the parent company only balance sheet. However, deferred tax is not accounted for if it arises from initial recognition of goodwill or from an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit/loss. Deferred tax is provided on temporary differences arising from investments in subsidiaries and associates. This excludes instances when the timing of the reversal of the temporary difference is controlled by the Company and it is probable that the temporary difference will not subside in the near future. Deferred tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date, and it is expected to apply when the related deferred tax asset is realized or the deferred tax liability is settled.
- D. Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current tax assets against current tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.
- F. A deferred tax asset shall be recognized as the carryforward of unused tax credits resulting from acquisitions of equipment or technology, research and development expenditures and equity investments to the extent that it is possible that future taxable profit will be available against which the unused tax credits can be utilized.

#### (21) Employee benefits

#### A. Short-term employee benefits

Short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in respect to services rendered by employees in a period. These benefits should be recognized as expenses in the period in which the employees render service.

#### B. Post-employment benefit plans

#### (a) Defined contribution plans

For defined contribution plans, the Company pays fixed contributions to an independent, publicly or privately administered pension fund. The Company has no further legal or constructive obligations once the contributions have been paid. The contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

#### (b) Defined benefit plans

i. A defined benefit plan is a pension plan without a defined contribution plan. Generally, a defined benefit plan is the pension benefit amount that an employee will receive upon retirement. This amount depends on one or multiple factors such as age, service years, and salary. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive upon retirement for their services with the Company in the current period or prior periods. The liability recognized in the balance sheet in respect to defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit net obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds. The corporate bonds referenced are denominated in the currency in which the benefits will be paid and have terms to maturity approximating to the terms of the related pension liability. When there is no deep market in high-quality corporate bonds, the Company uses interest rates of government bonds (at the balance sheet date) instead.

ii. Actuarial gains and losses arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise, and they are presented in retained earnings.

#### C. Severance benefit

Severance benefit is the benefit provided in exchange for the termination of employment before the normal retirement date. This occurs when employment is ended or when employees decide to accept the company's benefit offer. The Company recognizes expenses when the Company can no longer terminate the severance benefit offer or recognize related replacement costs, whichever occurs first. It is not expected to be completely paid off and discounted within 12 months after the balance sheet date.

#### (22) Share-based payment transaction

Share-based payment to employees are measured at the fair value of the stock options at the grant date. During the period when the employee can receive the salary unconditionally, the share-based payment can be recognized as the salary costs, and the relative equity can be raised. The recognized salary costs are adjusted with the reward amount that is expected to meet the service conditions and non-market price vesting conditions. The amount recognized in the end is the reward amount that meets the service conditions and non-market vesting conditions on the vesting date.

#### (23) Earnings per share

The Company presents the basic and diluted earnings per share of the common shareholders of the Company. The consolidation's basic earnings per share represent the profit and loss of the common shareholders of the Company divided by the weighted average number of common shares outstanding during the period. The diluted earnings per share is calculated by adjusting the influence of all potential diluted common shares with the gain or loss of the Company's common stock holders and weighted average number of common shares outstanding. Potential dilution of Company common shares includes convertible bonds, warrants, and employee bonuses that are not resolved by the shareholders' meeting and can be taken by stock issuance.

#### (24) Operating segments

Operating segments of the Company are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The Company's chief operating decision-maker is responsible for allocating resources and assessing the performance of the operating segments. The Board of Directors is recognized as the chief operating decision-maker.

#### (25) Revenue recognition

#### A. Sales revenue

Revenue arising from the sale of goods should be recognized when meeting all of the following criteria: (a) the delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer; (b) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold; (c) the amount of sales revenue can be measured reliably; (d) it is probable that the future economic benefits associated with the transaction will flow to the entity; and (e) costs related to current or upcoming transactions can be measured reliably.

#### B. Service revenue

The revenue generated by offering service is recognized according to percentage of completion on the reporting date.

#### C. Interest income and Dividends

Dividends from investment are recognized when the shareholders' rights to receive the payment has been established, provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

#### 5. Critical accounting judgements and key sources of estimation and uncertainty

During the process of applying accounting policies when preparing the parent company only financial statements, the Company did not make significant accounting judgments. Assumptions and estimates concerning future events are evaluated and adjusted based on historical experience and other factors on an ongoing basis. The details of this are as follows.

#### Important accounting estimate and assumptions

Accounting assumptions and estimates are based on reasonable estimates concerning future events regarding conditions on the balance sheet data and may differ from the actual results. Such assumptions and estimates have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, and the related information is addressed below.

#### A. Accounts receivable, allowance doubtful debts

The company's management level evaluate accounts receivable attentively whether have objective evidence of impairment or not. Recognized percentage of allowance doubtful debts is evaluated by the company's management level. If there are evidence of impairment loss, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of accounts receivable is reduced through the use of an impairment allowance account. The losses are recognized in current comprehensive income. The explanation of allowance doubtful debts please refer to Notes 6 (3).

#### B. Valuation of inventory

Inventories are stated at the lower of cost or net realizable value, and the Company must make estimations to determine the net realizable value of inventory at the end of each reporting period. Due to rapid technological changes, the Company estimates the net realizable value of inventory for obsolescence and unmarketable items at the end of each reporting period, then recording the cost of inventories to net realizable value.

The net realizable value of the inventory is mainly determined based on assumptions of future demand within a specific time horizon.

As of December 31, 2016, the Company's carrying amount of inventory was NT \$333,295 thousand.

#### C. Realization of deferred income tax assets

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which those deferred tax assets can be utilized. Assessment of the realization of the deferred tax assets requires the management's judgment and estimation. This includes assumptions such as future revenue growth and profitability, the amount of tax credits that can be utilized, and tax planning. Any changes in the global economic environment, industry trends and relevant laws could result in significant adjustments to deferred tax assets.

As of December 31, 2016, the Company recognized NT \$19,559 thousand as deferred income tax liabilities.

#### D. Calculation of accrued pension obligations

When calculating the present value of defined pension obligations, the Company must make estimations in order to determine the actuarial assumptions on the balance sheet date, including discount rates and the expected rate of return on plan assets. Any changes in actuarial assumptions could significantly impact the amount of defined pension obligations.

As of December 31, 2016, the Company's carrying amount of accrued pension obligations amounted to NT \$78,091 thousand.

#### 6. Details of significant accounts

#### (1) Cash and cash equivalents

Items	December 31, 2016		Dec	ember 31, 2015
Cash	\$	881	\$	1, 655
Demand deposits		55, 249		67, 047
Checking account		69		84
Foreign currency deposits		102, 111		149, 472
Time deposits		8, 679		35, 465
Total	\$	166, 989	\$	253, 723

 The Company possesses good credit with financial institutions and interacts with several financial institutions to diversify credit risk. The anticipated possibility of default is very low, and the balance sheet figure for exposure cash amount on maximum credit risks is same as cash equivalents

# 2. The Company's cash and cash equivalents had not been provided to pledge.

# (2) Notes receivable, net

Items	Dece	mber 31, 2016	Dece	mber 31, 2015
Non-related parties	\$	70, 400	\$	50, 496
Related parties		_		_
Less: Allowance for doubtful receivables		_		_
Net	\$	70, 400	\$	50, 496

The Company does not have collateral as security for receivable notes

# (3) Accounts receivable, net

Items	Dec	eember 31, 2016	Dece	ember 31, 2015
Non-related parties	\$	455, 883	\$	501, 377
Related parties		2, 041		9, 945
Less: Allowance for doubtful accounts		(4, 858)		(8, 784)
Net	\$	453, 066	\$	502, 538

# 1. Overdue but not in impairment of the financial assets aging analysis

	December 31, 2016		December 31, 2015	
Neither past due nor impaired Past due but not impaired	\$	476, 645	\$	543, 428
Within 60 days		4, 993		6, 902
From 61 to 90 days		9, 473		2, 704
From 91 to 180 days		32, 190		_
Over 180 days		165		_
Total	\$	523, 466	\$	553, 034

#### 2. Movements of the allowance for doubtful receivables:

	2016						
	a	lividually ssessed mpairment		ollectively assessed impairment		Total	
January 1st, 2016	\$	874	\$	8, 784	\$	9, 658	
Provision (reversal) for impairment		(119)		(3,926)		(4, 045)	
December 31, 2016	\$	755	\$	4, 858	\$	5, 613	
				2015			
		lividually ssessed		ollectively assessed		Total	

	for i	npairment	for	r impairment	
On January 1st, 2015	\$	1, 758	\$	193	\$ 1, 951
Provision (reversal) for impairment		(114)		8, 591	8, 477
Write-off and unrecoverable		(770)		_	(770)
December 31, 2015	\$	874	\$	8, 784	\$ 9, 658

- 3. Individually assessed for impairment and relative accounts are presented under "Other noncurrent assets".
- 4. For the Company's accounts receivable on December 31, 2016 and December 31, 2015, the exposure amount of maximum credit risk is the book value for receivables.
- 5. The Company did not hold collateral for accounts receivable.

#### (4) Net inventories

			December 31, 2016				
		Cost	Allowance for price decline of inventories	Carrying amount			
Raw materials	\$	135, 520	\$ 3,981	\$	131, 539

The Company pledges some part of its assets as collateral against the loans listed above. Please refer to note 8.

#### (10) Pensions

#### A. Defined benefit plan;

- (a) The Company and its domestic subsidiaries have a defined benefit pension plan in accordance with the Labor Standards Law. The plan covers all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and the service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries to the retirement fund deposited in the Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by the end of December 31 every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method to the employees expected to be qualified for retirement in the next year, the Company will make contributions to cover the deficit by the following March.
- (b) The amounts recognized in the balance sheet are determined as follows:

December 31,	December 31,
2016	2015

Present value of defined benefit obligations		(92, 782)		(93, 827)
Fair value of plan assets		14, 691		4,071

		2016		2015
Fair value of plan assets at January 1	\$	4, 071	\$	3, 505
Expected return on plan assets		43		35
Contributions on plan assets		15, 167		432
Benefits paid from plan assets		(4,637)		_
Actuarial gain or loss on plan assets		47		99
Fair value of plan assets on December 31	\$	14, 691	\$	4, 071
(e) The fair value of the plan assets by major	catego	ories at the end	d of rep	orting period
is as follows:				
	Decer	mber 31, 2016	Decen	nber 31, 2015
Cash	\$	14, 691	\$	4,071
Equity instruments		_		_
Debt instruments		_		_
Total	\$	14, 691	\$	4,071
(f) Expenses recognized in statements of cor	nprehe	ensive income 2016	are as	follows:
Current service cost	\$	1, 424	\$	1, 369
Interest cost		1, 159		1, 336
Expected return on plan assets		(43)		(35)
Current pension costs	\$	2, 540	\$	2, 670

Remeasurement details of net defined benefit liabilities are as follows:

	2016	2015
Actuarial gain or loss on defined benefit obligation	\$ 1,009	\$ 7, 523
Gain (loss) on plan assets	(47)	(99)
Remeasurement of net defined benefit liabilities' other comprehensive loss (gain)	\$ 962	\$ 7, 424

Details of the aforementioned costs and expenses recognized in the statements of comprehensive income are as follows:

	2016	 2015
Cost of goods sold	\$ 1, 277	\$ 1, 374
Selling expenses	76	98
General and administrative expenses	865	847
Research and development expenses	316	351
Cost of fix asset	6	_
Total	\$ 2, 540	\$ 2, 670

Actuarial gain or loss recognized under other comprehensive income are as follows:

	2016	2015		
Current period	\$ (962)	\$	(7, 424)	
Accumulated amount	\$ (8, 609)	\$	(7, 647)	

(g) The Bank of Taiwan was commissioned to manage the funds of the Company's defined benefit pension plan in accordance with the fund's annual investment and utilization plan and Article 6 of "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund". The scope of utilization for the fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc. With regard to the utilization of the fund, its minimum earnings in annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. The constitution of the fair value of plan assets as of December 31, 2016 and 2015 is given in the Annual Labor Retirement Fund Utilization Report published by the government. Expected returns on plan assets represent a projection of overall returns for the obligations period, which was estimated based on historical returns and by reference to the status of Labor Retirement Fund utilization by the Labor Pension Fund Supervisory Committee. It was also taken into account that the fund's minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks.

(h) The principal actuarial assumptions used were as follows:

	December 31,	December 31,
	2016	2015
Discount rate	1.25%	1.25%
Future salary increase rate	2.00%	2.00%

Effects of changes in the principal actuarial assumptions on the present value analysis of the defined benefit obligation are as follows:

	Discour	nt rate	Future sala	ry increases
December 31, 2016	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
Effects on present value of defined benefit obligation	\$ (2, 173)	\$ 2,260	\$ 2,237	\$ (2, 162)
	Discour	nt rate	Future sala	ry increases
December 31, 2015	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
Effect on present value of defined benefit obligation	\$ (2, 344)	\$ 2,441	\$ 2,417	\$ (2, 333)

The sensitivity analysis above is based on other conditions that are unchanged, but only one assumption is changed. In practice, more than one assumption may change at one time. The method of analyzing sensitivity and calculating net pension liability in the balance sheet are the same.

- (i) The expected total contributions paid to the Company's defined benefit pension plans within one year from December 31, 2016 was \$2,105 thousand.
- (j) As of December 31, 2016, the weighted average duration of the retirement plan is 10 years.

The analysis of timing was as follows:

Within 1 year	\$ 2,316
1-2 years	10,879
2-5 years	19,021
Over 5 years	79,297
	\$ 111,513

#### B. Defined contribution plan:

(a) Effective July 1, 2005, the Company established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with Republic of China (ROC) nationality. Under the New Plan, the Company contributes a monthly amount based on no less than 6% of the employees' monthly salaries and wages to the employees' individual pension

- accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
- (b) Monthly contributions of Nan Liu Enterprise (Pinghu) in accordance with the pension regulations in the People's Republic of China (PRC) are based on a certain percentage of employees' monthly salaries and wages. Monthly contributions are administered by the government.

Other than the monthly contributions, the Company has no further obligations.

(c) The pension costs (including pension insurance) under the Company's defined contribution pension plans for the years ending on December 31, 2016 and 2015 were \$5,257 thousand and \$5,239 thousand, respectively.

#### (10) Capital and other equity

#### 1. Common stock

As of 2016 and December 31, 2015, the Company's authorized capital was \$1,000,000 thousand, and issued capital was \$726,000 thousand.

#### 2. Capital surplus

Item	December 31, 2016	December 31, 2015
Additional paid-in capital	\$ 439,404	\$ 439,404
Employee stock options	14,063	14,063
Total	\$ 453,467	\$ 453,467

Pursuant to the ROC Company Act, capital surplus arising from paid-in capital in excess of the par value on the issuance of common stocks and donations can be used to cover accumulated deficit. It may also be used to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Company has no accumulated deficit. Furthermore, the ROC Securities and Exchange Law requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.

#### 3. Retained earnings and dividend policy

- (1) According to the Company's Articles of Incorporation:
  - a. Over 1% of the current year's earnings, if there were earnings, shall be distributed as employee bonuses and less than 2% as director and supervisor remuneration. However, if the Company still has accumulated loss, the compensation shall be kept.
  - b. Remuneration of employees shall be paid by stock or cash, including

- employees of affiliated companies who meet certain criteria. Remuneration of directors and supervisors may be paid in cash.
- c. 10% of the annual net income, after offsetting any loss from prior years and paying all taxes and dues, shall be set aside as legal reserve. Then, special reserve is set aside or reserved according to laws or competent authority. The appropriation of the remaining amount, along with any unappropriated earnings, shall be proposed by the Board of Directors and resolved by the shareholders to be distributed as dividends. Cash dividends, however, shall be no less than 20% of total dividends.
- d. Aforementioned distribution of earnings shall be resolved and recognized in the shareholders' meeting held in the following year.
- (2) The legal reserve shall not be used for any purpose other than covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share of ownership. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- (3) Company employee bonuses were calculated by the percentage before remuneration of employees and directors deducted from income before tax, and the amount was estimated to reach \$8,142 thousand and \$8,448 thousand in 2016 and 2015, respectively. Remuneration of directors was expensed based on the estimated amount payable. The estimated amount was \$5,226 thousand and \$4,224 thousand in 2016 and 2015, respectively. If there is a change in the proposed amounts after the annual consolidated financial statements are authorized for issuance, the differences are recorded as a change in the accounting estimate in the next year.
- (4) The bonus to employees and remuneration of directors and supervisors were NT\$8,142 thousand and NT\$5,226 thousand, respectively proposed by the Board of Directors on March 14, 2017. There was no difference between the actual amounts of bonus to employees and remuneration of directors and supervisors paid and the amounts recognized in the consolidated financial statements for the year ended December 31, 2016. The distribution of the 2016 will be approved in the shareholders' meeting on May 31, 2017.

(5) The distributions of profit for 2015 and 2014 were approved by the shareholders' meeting on June 13, 2016 and June 2, 2015, respectively. The appropriations and dividends per share were as follows:

	20	)15		20	)14	
	Dividends per share (NT\$)		Amount	Dividends per share (NT\$)		Amount
Cash	3.9	\$	283,140	2.8	\$	203,280
Shares	_		_	_		_
		\$	283,140		\$	203,280
Bonus to employees - cash		\$	8,448		\$	7,563
Remuneration of directors and supervisors			4,224			3,781
-		\$	12,672		\$	11,344

The distribution of 2015 profit were as follows:

				2015		
	The amount to be allocated by the Board of Directors allotment case		Estimated annual cost recognized in the estimated amount		Differences	
1. Distribution						
Cash bonus to employees	\$	8, 448	\$	8, 448	\$	_
Remuneration of directors and supervisors	\$	4, 224	\$	4, 224	\$	_

Distribution of 2015 profit was the same as proposal by the Board of Directors on March 18, 2016 and the shareholder resolution made on June 13, 2016. Please refer to the Taiwan Stock Exchange website under "Market Observation Post System" for the resolutions of the Board of Directors and shareholders' meeting.

#### 4. Other equity

		Currency Difference
On January 1st, 2016	\$ \$	84, 610
Currency translation differences (after tax)		(240, 277)
On December 31, 2016	\$ \$	(155, 667)

(Note) The Company controls its subsidiary's dividends. NAN LIU plans to support its subsidiary in establishing nonwoven fabric at the Science and Technology Park in Yanchao District through subsidiary's earnings distribution. Because the company's current funds are sufficient and a new factory is not a major capital expenditure at this stage, it is unnecessary for the subsidiary to allocate its earnings. At the same time, the Company actively plans to apply retained earnings to extend subsidiary operations. Therefore, undistributed profits and foreign conversion differences were evaluated for the future without rotation in 2016. According to IAS12's 39th provision for investment subsidiaries related to taxable temporary differences (including subsidiaries' undistributed earnings and foreign exchange differences), the above are not accounted-as deferred tax liabilities.

- 5. The Company annual profit-seeking enterprise income tax for last year had been approved by Tax Collection agency in 2014.
- 6. Information of undistributed earnings:

7. Imputation credit account and creditable ratio:

_		Decemb	per 31, 2016	December 31, 2015		
Imput accou	ation credit ant balance	\$ 139, 122		\$	79, 074	
	2016 (forecast)		2015 (actual)			
Tax ratio	deduction	13	3. 32%	1	3. 90%	

Tax deduction ratio of forecast in 2016 and actual earnings in 2015 were 13.32% and 13.90%, respectively. However, according to the 66th new amended income tax law article 6, the tax deductible rate for shareholders living in the territory of the Republic China can be cut in half. Surplus allocation became available since January 1st, 2015. Actual distribution to shareholders' deductible tax is shareholders account balances for deduction, because the tax deduction ratio based on planned earnings distributions may vary from the tax deduction ratio of actual shareholder distributions.

#### (15) Additional information on expenses by nature and employee benefit expense:

There were 254 and 266 workers in the Company on December 31, 2016 and December 31, 2015, respectively.

#### (16) Earnings per share

1. Basic earnings per share

Earnings per share were attributed to the common equity holders of the Company's profit and losses and divided by the weighted average number of shares for the calculations for the current period.

#### 2. Dilute earnings per share

The effect of diluted earnings per share indicates the number of adjustments to all diluted potential common shares, and was attributable to the equity holders of the parent company's common stock profit and loss calculation and the weighted average number of shares outstanding.

		2016	
	Net income	Weighted average number of outstanding shares (thousand shares)	Earnings per share (NT\$)
Basic earnings per share Profit attributable to common stock holders of the parent company Diluted earnings per share	\$ 582, 367	72, 600	\$ 8.02
Assumed conversion of all dilutive potential common stocks		54	-
Profit attributable to common stock holders plus assumed conversion of all dilutive potential common stocks	\$ 582, 367	72, 654	\$ 8.02
		2015	
	Net income	Weighted average number of outstanding shares (thousand shares)	Earnings per share (NT\$)
Basic earnings per share			
Profit attributable to common stock holders of the parent company	\$ 581, 431	72, 600	\$ 8.01
Diluted earnings per share			
Assumed conversion of all dilutive potential common stocks		49	_
Profit attributable to common stock holders plus assumed conversion of all dilutive potential common stocks	\$ 581, 431	72, 649	\$ 8.00

If enterprises choose to offer employees remuneration or profits in the way of shares or cash, in order to calculate the diluted earnings per share, employee remuneration (or employee profits issued with stock that has a dilution effect on potential ordinary shares) should be included in the weighted average number of outstanding shares. Calculating diluted earnings per share is based on the closing price reported on the end period date of potential ordinary shares (taking into account the ex-right and ex-dividend effect) as a basis for judging the number of shares. The following year of resolution staff

remuneration or issuance of profit shares will continue to take into account the dilution effects to potential ordinary shares when calculating the diluted earnings per share.

#### 7. Rent expenses:

- (1) The Company rented the house located in Loung-Shua Lane, No.11 and No.19 in Bixiu Road, Qiaotou District, Kaohsiung City from the related parties Huang Hsieh Mei-Yun and Huang Ho-Chun in February, 2008 as a staff dormitory. The lease time was from February 1st, 2008 to December 31st, 2014, and the rent was NT 8 thousand per month. From December 31st, 2014, the contract was renewed until December 31st, 2017. Annual rental expenses were NT \$200 thousand for 2016 and 2015. As of December 31, 2016 and 2015, the above amounts were settled.
- (2) The Company rented the land in Bixiu No 613, Qiaotou District, Kaohsiung City with NT\$ 10 thousand per month from related parties Huang Hsieh Mei-Yun and Huang Ho-Chun in July, 2011. The lease time was from July 1st, 2011 to December

31st, 2015, which the contract was extended to December 31st, 2018. Annual rental expenses were NT \$240 thousand for 2016 and 2015. As of December 31, 2016 and 2015, the above amounts were settled.

#### 8. Others:

- (1) All the Company's bank loans indicate Huang Chin-San and Huang Ho-Chun as guarantors.
- (2) The main management remuneration information is as follows:

Items	2016		2015
Salary	\$ \$ 8,672		11, 224
Bonus	2, 644		2, 683
Service allowance	730		500
Distribution of surplus items	4,675		4, 453
Total	\$ 16, 721	\$	18, 860

- A. Salaries include salary, allowances, pensions, severance pay, etc.
- B. Bonuses include bonuses, incentives, etc.
- C. Service allowances include travelling expenses, special allowances, various allowances, dormitories, company cars, etc.
- D. Distribution of surplus items are employee bonuses and remuneration to directors and supervisors.
- E. Related information can also be found in the Company's annual report.

#### 8. Pledged Assets

The Company's assets pledged as collateral were as follows:

Item	December 31, 201	December 31, 2015		
Restricted Assets	\$	_	\$	_
Land				48, 744
Building		_		_
Total	\$	_	\$	48, 744

#### 9. Major commitments and contingencies

1. Amounts of unused letters of credit and guarantee deposit were as follows:

Decemb	er 31, 2016	December 31, 2015				
Letter of credit	guarantee deposit	Letter of	f credit	guarante	e deposit	
USD 1,782	\$ -	USD	205	\$	_	

2. In September 2011, the Company signed a superficies agreement with Taiwan Sugar Corporation for 4 pieces of land located at No. 4 Dai Tien Fu Section, Yanchao, Kaohsiung as the land for a new factory. The company has paid NT\$ 8,153 thousand already as a rent deposit and accounted for "refundable deposits". As Taiwan Sugar Corporation completed land changes according to the superficies agreements and

signed official contracts, the Company paid a 10-years premium of NT\$ 46,680 thousand to Taiwan Sugar Corporation. As of December 31st, 2013, the land changes were approved by Kaohsiung Government, and notarization of the superficies agreements was finalized on January 10th, 2014. The duration of the superficies agreements ends on January 9th, 2024. When the agreement expires, an extended contract shall be negotiated by both parties after submitting the premium. However, the duration of superficies shall not exceed 50 years, so the expiration of 50 years shall not be extended.

- 10. Major damage losses: none.
- 11. Major subsequent events: none.

#### 12, Others:

#### (1) Capital risk management

The main goal of the Company's capital management is to maintain integrated and positive capital ratios in order to support business operations and maximize shareholders' equity. The Company manages and adjusts its capital structure based on economic conditions and debt ratios. It may adjust dividends or issue new shares to achieve the goal of maintaining and adjusting the capital structure. The Company controls finance by reviewing its debt equity ratio, and the debt equity ratio for reporting is as follows:

Items	Dece	ember 31, 2016	December 31, 2015		
Total liabilities	\$	1, 738, 175	\$	1, 403, 444	
Total equity		2, 721, 611		2, 663, 459	
Debt to equity ratio		63.87%		52.69%	

#### (2) Financial instruments

- 1. The totality of financial instruments and fair value information
  - (1) Company mergers' financial assets, debt book value, and fair value are listed as below. These include fair value hierarchy information. However, this cannot be used for measuring financial instruments' book value to meet reasonable approximations of fair value and the active market without a quote. Also, fair value cannot be provided through the equity method. It is unnecessary to reveal fair value information according to provisions.

Decem	ber 3	31,	20	16

		The fair value

Equipment payment	3, 911	_	_	_	_
Long-term liabilities due within a year	90, 000	_	_	_	_
Long-term liabilities	408, 130	_	_	_	_

(2) Fair value evaluation technique for financial instruments not measured at fair value.

The methods and assumptions adopted by the combined company to estimate financial instruments not measured at fair value are as follows:

If financial liabilities measured at amortized costs have transactions or quote data within market makers, then the most recent closing price and quote price data are the basis for assessment of fair value. If there is no market price as the reference, the evaluation method is then used for estimation. Estimates and assumptions reached through the evaluation method are discounted cash flows used to estimate the fair value.

- (3) Fair value evaluation techniques for financial instruments measured at fair value
  - a. Non-derivative financial instruments

If financial instruments have open quotes in active markets, these quotes represent the fair value. The market prices of major exchanges and notes considered popular in over-the-counter market government bonds are all used as the basis of the fair value for the equity instruments of listed companies and debt instruments with open quotes in active markets. If open quotes of financial instruments can regularly be obtained in a timely fashion from exchanges, brokers, underwriters, industry associations, pricing service institutions or competent authorities, and the prices actually and regularly foster fair market trading, then the financial instrument has open quotation in an active market. If the aforementioned conditions are not met, the market is considered not active. In General, wide bid/offer spread, significant increase of trading spreads, or slim trading volume are indicators of an inactive market. The combined company holds financial assets that have standard terms and conditions and are trading in active markets, such as shares from listed companies, mutual funds and bonds, their fair value is determined by market price quotes.

Fair value for other financial instruments other than the aforementioned financial instruments with active markets is obtained through evaluation techniques or quotes made by counterparties.

#### b. Derivative financial instruments

The combined company currently has no derivatives financial instruments.

#### (4) Transfer between Class 1 and Class 2

There was no transfer in 2016 and 2015.

#### 2. Financial risk management policies

The Company uses a comprehensive risk management and control system to clearly and effectively identify, measure and control all of its risks (including market, credit, liquidity and cash flow risk).

The Company's management evaluates economic conditions and the effects of market value risks to control the related risks effectively, optimize its risk position, and maintain proper liquidity and central control of market risks.

#### 3. Market risk

Market risk refers to the result of changes in market prices, such as exchange rates, interest rates, and equity instrument price changes that will affect the Company's risk-benefit or value of financial instruments. The objective of market risk management is to control the degree of market risk within bearable range and to maximize the return on investment.

#### (1) Foreign exchange risk:

The Company operates internationally and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the USD, RMB and EUR. Foreign exchange risk arises from future commercial transactions, recognized assets and liabilities, and net investments in foreign operations.

#### A. Exchange rate risk exposures

December 31 2016

At the balance sheet date, the book value of monetary assets and liabilities that denominated in non-functional currency were as follows.

December 31 2015

	December 31, 2010					December 31, 2013					
Items	Foreign urrency	Exchange nttp			Foreign urrency			NTD			
Financial assets											
Monetary items											
USD	\$ 10, 702	32. 250	\$	345, 150	\$	12, 348	32.825	\$	405, 325		
RMB	7, 347	4.617		33, 923		203	4.995		1,012		

Investments accounted for using equity method						
RMB	654,706	4.617	2,757,207	567,533	4.995	2, 436, 232
Financial liabilities						
Monetary items						
USD	8, 801	32. 250	283, 820	6, 775	32.825	222, 398
Non-Monetary items						
USD	3	32. 250	108	24	32.825	790

#### B. Sensitivity analysis

The Company's exchange rate risk mainly arises from the conversion of cash and cash equivalents, receivables (payable), other receivables (payable), and loans that are denominated in nonfunctional currency. On December 31, 2016 and 2015, if the NTD/USD, NTD/RMB, NTD//EUR exchange rate appreciates/depreciates by 1% with all other factors remaining constant, in 2016 and 2015, the company's income before income tax would increase/decrease by \$952 thousand and \$1,839 thousand respectively. The analysis uses the same basis as the one used in the prior period.

#### (2) Interest rate risk:

The Company's loans are based on a floating rate and do not have interest rate swap contracts to change from a floating to a fixed rate. In response to interest rate risk, the Company assesses the bank and currency borrowing rates regularly and maintains good relations between financial institutions to decrease financing costs, strengthen the management of working capital, reduce its reliance on banks and diversify the risk of interest rate changes.

The Company's exposure to interest risk to its financial liabilities is described in the liquidity risk of the Note. The following sensitivity analysis is according to the non-derivative instrument's interest risk at the reporting date. The analysis assumed that the amount of floating interest rate bank loans at the end of the reporting period had been outstanding for the entire period. When reporting interest rate to top management of the Company, the floating interest rate used should increase or decrease by 1%, which also represents a reasonable possible change assessment by management.

All variables remaining the same, a hypothetical increase/decrease of 1% in the interest rate would result in an increase/decrease in the Company's net income by approximately \$9,902 thousand and \$7,731 thousand for the years ending on December 31, 2016 and 2015, mainly due to floating rate loans.

#### (3) Credit risk:

The Company's primary credit risk is the collection of receivables. Consequently, the Company has continuously assessed the collectability of accounts and notes receivable, and reserved provision for doubtful accounts. Therefore, the Company's credit risk is very low.

#### (4) Liquidity risk:

The Company manages and maintains sufficient cash and cash equivalents to support its operations and ease the effects of fluctuations in cash flows. The Company's management supervises the utilization of bank facilities to ensure compliance with loan agreements.

Bank loans are an important source of liquidity for the Company. The following table analyzes non-derivative financial liabilities based on the earliest possible repayment date.

December 31, 2016

Items		than 1 ear	Betwee	-	veen 3 years	e than ears	ontractual sh flows
Short-term loans	\$ 32	0,000	\$	_	\$ _	\$ _	\$ 320,000
Short-term bills payable	17	9, 961		_		_	179, 961
Notes payable	16	3, 305		_	_	_	163, 305
Accounts payable	39	3, 563		_	_	_	393, 563
Other payables	6	6, 167		_	_	_	66, 167
Payables on equipment		6, 722		_	_	_	6, 722
Long-term loans (including due within one year or one operating cycle)		_	490	, 000	_	240	490, 240

December 31, 2015

Items	Less than 1 year	Between 1 and 3 years	Between 3 and 5 years	More than 5 years	Contractual cash flows
Short-term loans	\$ 10,000	\$ -	\$ -	\$ -	\$ 10,000
Short-term bills payable	164, 931	_	_	_	164, 931
Notes payable	109, 726		_	_	109, 726
Accounts payable	292, 575	_	_	_	292, 575
Other payables	65,605	_	_	_	65,605
Payables on equipment	3, 911		_	_	3, 911
Long-term loans (including due within one year or one operating cycle)	90, 000	380, 000	27, 890	240	498, 130

#### (5) The cash flow risk of changes in interest rate:

Changes in the Company's cash flow risk primarily comes from floating rate bank loans. The Company's bank loans are based on a long-term floating rate. When interest rates rise, the Company negotiates to decrease interest rates or borrow short-term loans to manage its interest rate risk. Overall, the Company's cash flow risk from changes in interest rates is low.

#### (3) Financial instruments with off-balance sheet credit risk

(1) The Company provides endorsement and guarantees commitment to subsidiaries in accordance with "Regulations Governing Endorsements and Guarantees". Because the Company has full control over the subsidiaries' credit status, no collateral was requested. In case of the default of subsidiaries, the possible loss is the same amount as the guarantee or endorsement provided.

(2) Financial instruments with off-balance sheet credit risk

Items	Decemb	er 31, 2016	December 31, 2015		
Endorsements / guarantees provided to subsidiaries	USD	2, 830	USD	23, 657	

#### (4) Fair value estimation

The Company does not engage in transactions of financial instruments measured by fair value.

#### 13. Disclosure items

- (1) Significant transactions and (2) Business investments
  - 1. Offer loans to others: none.
